## PROFILE SUMMARY

Digital Marketing Specialist with a focus on SEO, Performance Marketing, and organic brand growth. I combine technical WordPress development with competitor analysis, content optimization, and Social Media Management to enhance digital visibility. By leveraging GA4 and GTM for precise tracking, I execute data-driven strategies designed to engage audiences and convert high-quality leads into measurable business success.

## EXPERIENCE

### DIGITAL MARKETING INTERN

August 2025 - November 2025

#### EPIC VENTURES

- Abdul Aziz Restaurant : Managed a hybrid organic/paid strategy reaching 184K+ accounts, with 62% being non-followers, resulting in a 25.3% YoY increase in direct customer calls.
- Capella : Achieved a 140% surge in search visibility and 90.5% growth in high-value phone enquiries through targeted GMB and Local SEO optimization.
- Grow Learn : Scaled reach to 3.2M+ monthly views and 869K unique users, driving 11,200+ profile visits and a 54.7% increase in course landing page taps.
- Technical Execution : Optimized profiles for 96% mobile-user compatibility and managed multi-platform campaigns across Meta Ads Manager and Google Business Suite.

### PYTHON FULL STACK WEB APP DEVELOPER

January 2022 - 2023

#### Datahub Technologies

- Wrote reusable, testable, and efficient Python code.
- Implemented MVC architecture for web applications using Django.
- Managed the full SDLC from requirements to system testing.
- Created technical documentation for reference and reporting.

## FREELANCE WORK EXPERIENCE
